# Daily Newsletter 2

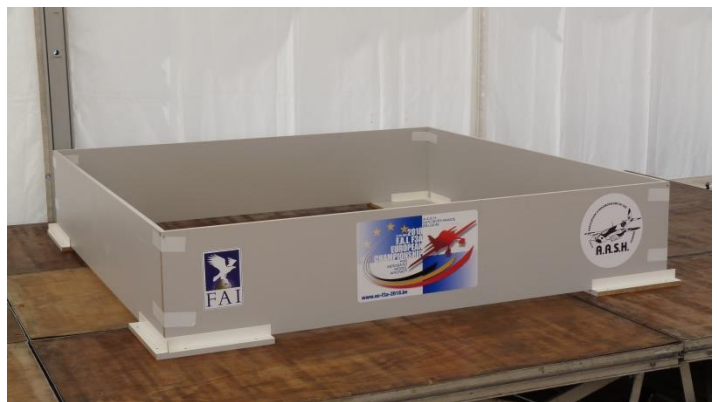

Thursday 19-7,

Some impressions of the last preparation by the organisation and the arrival of teams

Sound check in progress, 3 mtr  
max 94 db

A 2 meter box waiting for the plane

Ready for model processing

“Hightech” scale

One of the logic options for model processing is  
the new device (left).

backup: old but less “high tech” device

## Work in progress on the field

Electricity connections are sometimes heavy (over) loaded due to the many chargers and other devices.

## In the mean time training is still going on even while the sun is burning

Flying in the late evening and early in the morning, more challenging

Some are even using two sunscreens

**In the mean time registration is started**

Team Israël has arrived

Registration team is ready for action-

And are the first team registered

it looks like they are very happy with the bottles of beer

Jincheng Kuang from China  
registered as well

Stefan and Kristian Niklass  
arrived after a long drive  
from Germany

Team Russia arrived and installed  
after a very long more then 2000 km  
drive

Some other plane for in the  
evening?

Two F-16 falcons are flying low and slow over the field, it looks like they are interested in joining the competition as well.

Daily Newsletter, first edition

Puzzle: do somebody know what this means ??

Gernot Bruckmann with his PANDORA

Italian team, ready for action

Russian pilot Sergey Danilov during the practise flight

Most of the planes waiting in the shadow, there are different sizes as you can see

**Yves is calling for lunch !**

**Diner and bar = No smoking area**

Different way to feed the dog

Behind the scene there is a lot of equipment required for support

Waterreservoirs, 4000 L drinking water

A huge generator for electricity, for all the chargers and other electronic devices

Satellite receiver and transmitter for connection with the rest of the world

Just to remember, keep the field clean

**LOADING  
AREA**

**UNLOADING  
AREA**
